## GAMO PRECISION AIRGUNS

### A LEGACY OF INNOVATION

For 60 years, Gamo has been designing and manufacturing world-class air rifles, air pistols and air gun ammunition for small game hunting, competition, recreation and pest control.

Today, Gamo rifles are sold in more than 90 countries with offices in the USA, UK, Spain and Mexico.

A truly iconic brand, Gamo delivers the finest products and the latest technology supported by unparalleled customer support and interaction.

### THE DIFFERENCE IS IN OUR DNA.

- Fully integrated manufacturing
- Repeated test firing
- Exhaustive quality control procedures
- Automotive-grade robotic technology
- Patented polymer-jacketed barrel
- Patented Whisper sound-dampening technology
- Green manufacturing facility

Own the air with Gamo today.  
The most progressive and innovative air rifle manufacturer in the world.

## GAMO PROSHOT ID SYSTEM

### THE RIGHT AIR GUN > THE RIGHT AMMO > THE PERFECT COMBINATION

At Gamo, we manufacture many different air guns to fit the needs of versatile shooters everywhere. With such a variety of choices, we've created the GAMO PROSHOT ID SYSTEM to help you better align your shooting needs with the performance attributes of each model. From Hunting to Pest Control & Recreation to Target & Competition, all Gamo air gun and ammunition packages are clearly labeled and color coordinated to designate their recommended primary usage—so you can easily pair the right ammo with the right air gun. Every time.

### GAMO PRODUCT RECOMMENDED USAGE

#### GAMO AIR RIFLE RECOMMENDED USAGE

#### ➤ PLINKING & PEST CONTROL

Provides accuracy and high velocity – ideal for recreational purposes and other everyday uses like target shooting. Also perfect for nuisance animals such as mice, rats, birds and snakes.

#### ➤ HUNTING

Delivers accuracy with higher energy downrange for ultimate impact and penetration – ideal for small game such as rabbits, squirrels, raccoons, and crows.

#### ➤ TARGET & COMPETITION

Offers the ultimate in accuracy and consistent performance – ideal for both training and competitive shooting.

## 10X QUICK-SHOT RAPID RELOAD TECHNOLOGY

### MULTISHOT® GEN2 INERTIAL

10X Quick-Shot GEN2 rapid reload technology

Gamo's New 10x GEN2 Inertial Magazine has been designed to offer an improved reloading experience. The redesign of its internal mechanism allows easier pellet indexing, minimizing inner frictions and providing an extremely smooth operation, increasing the lifespan of the rifle and guaranteeing an optimal shooting experience. Gamo's 10X GEN2 Multishot system is lighter, a 25% more compact and presenting a low profile design, with the inclusion of open sights, that will let you use this air-gun without a scope.

## AIRGUN TECHNOLOGIES

Based off the groundbreaking IGT platform, the IGT MACH 1™ replaces the standard spring powerplant with an Inert Gas Cylinder, but the IGT MACH 1's monster 33 millimeter cylinder delivers more velocity and terminal penetration. The pneumatic cylinder rockets pellets up to 1420 Feet Per Second (fps) in .177 caliber (with PBA Platinum Ammo), and promotes smooth and consistent cocking efforts with constant power delivered to any pellet you shoot. If you want: More Precision, Less Vibration and True Knock Down Power. Make sure your next Gamo has the IGT MACH 1 inside.

Improve your knockdown power and accuracy! Enhance your hunting experience! The IGT™ (Inert Gas Technology™) from Gamo® enhances your hunting or target shooting experience. This technology consists of a pneumatic cylinder that replaces the spring, enabling the shooter to get more terminal velocity (up to 1,300 fps with PBA® Platinum .177 Cal. and up to 975 fps with PBA® Platinum .22 Cal.), less vibration, more consistent power, and a constant and smooth cocking effort.

The revolutionary C.A.T. (Custom Action Trigger) enables Gamo air rifle owners to independently adjust the 1st and 2nd stages of their trigger to tailor the trigger pull and crispness to their personal preference. Simply loosen the 1st stage adjustment screw and the trigger travel increases. If a shorter travel length is desired just tighten the same screw to decrease the 1st Stage travel length. The 2nd Stage Adjustment is made just as easily—unscrew the adjustment setting to increase the 2nd Stage travel length or decrease it by screwing in the same adjustment point.

The SAT is a patent-pending trigger developed by Gamo and incorporated into several Gamo airguns. This trigger helps the shooter acquire a more precise shot. It is a custom trigger designed for hunting and target shooting that will make you shoot like a pro! It features a smooth action pull, maximizes pinpoint accuracy and feels crisp and clean.

Gamo, pioneering the latest air gun technology, delivers the groundbreaking Triple R (Recoil Reducing Rail). The RRR was developed to subdue the taxing stresses placed on your scope from the intense recoil of air guns and high-powered rifles. The Recoil Reducing Rail uses patent pending two-piece aluminum construction separated by dual polymer struts to absorb the shockwaves generated by the recoil. Once the scope is mounted to the Recoil Reducing Rail, the recoil stresses to its internal components are reduced by almost 100%.

## GAMO SOUND SUPPRESSION TECHNOLOGY AND SOUND LEVELS

Gamo's patented Whisper technology leads the air rifle industry in sound suppression. This technology is categorized into three tiers—Whisper, Whisper Maxxim and Whisper Fusion—for quiet, quieter, and quietest performance. However, "noise reduction" does not mean "silence," as sound levels will vary depending upon pellet choice. A lighter, faster and smaller caliber pellet, for instance, will produce a louder sound than a heavier, slower and higher caliber pellet. To further assist with your purchasing decision, please refer to the chart above.

The Whisper is the noise-suppressing technology already known and trusted by thousands of shooters around the world. It is one of the first noise-dampening technologies created in the air-gun industry. The Whisper is an integrated noise and muzzle blast reducer molded onto the barrel, forming a single part.

The Whisper Maxxim features two noise dampening chambers, offering a quieter performance as well as an improved muzzle break design. The new muzzle break helps reduce the recoil and is also integrated with the bull barrel. This new technology results in a lightweight, fluted, polymer/steel rifled barrel, integrating one of the latest sound-suppression technologies from Gamo. The Whisper Maxxim takes less space than the Whisper, keeping a better weight balance while making the air rifle quieter.

The Whisper® Fusion® technology incorporates a double integrated sound moderator making it the quietest Gamo air rifle. The pellet travels through two different chambers, compressing and preventing the noise expansion.

NEW

IT WAS ALREADY PERFECT.  
THEN WE MADE IT BETTER.

FASTER, LIGHTER AND MORE PRECISE THAN EVER

Magazine Compartment Under Grip  
Achieve faster reloads with Gamo Speedster's new magazine holder.

10X GEN2

## HUNTER 1250 PRO IGT MACH 1

### COMBINING A BEAR’S NATURAL ELEGANCE AND FIERCE AGRESSION

Gamo’s Hunter 1250 Grizzly Pro combines a bear’s natural elegance and fierce aggression. Designed on a wooden stock, this airgun stands out for its sublime details: metallic barrel block, 33mm Oversi-  
zed Gamo cylinder, which provides a supernatural power from its IGT system, and Whisper silencing technology which calms down the beast and makes it more precise and controllable.

## G MAGNUM 1250 IGT MACH 1

### PURE POWER AND PERFORMANCE. UNMATCHED PRECISION.

Gamo’s G-Magnum 1250 IGT Mach 1 is our most powerful, accurate and ergonomically designed air rifle. Spurred on by the persistent market demand for increased power at an affordable price, our intentions have always been to satisfy the broadest range of consumers for whom power and price will remain pivotal factors in their buying decision. The European heavyweight of the air gun world has surely answered that criteria by creating the new Gamo G-Magnum 1250 IGT Mach 1 break barrel air rifle, which comes with Gamo’s latest thumbhole ambidextrous synthetic stock.

## HUNTER MAXXIM IGT

## CLASSIC WOOD DESIGN WITH THE LATEST GAMO TECHNOLOGIES

Gamo's Hunter Maxxim IGT is a classic style carbine composed of a last generation Whisper Maxxim barrel and a water-based varnished wooden stock, that has been laser engraved to provide a perfect grip. This modern classic features Gamo's SAT, a smooth and progressive trigger that improves the user's shooting precision and the brand's IGT Technology, which replaces the traditional main spring by a last generation pneumatic cylinder, improving its terminal velocity, providing a more consistent power level, reducing cocking efforts and lessening undesired vibrations.

# PCP RIFLES

**ULTRA VERSATILE. ULTRA FUN.**

Gamo PCP rifles are exceptionally reliable and unquestionably comfortable to shoot—delivering unsurpassed accuracy whether you're plinking, at the range or in the field.

FURIA

FURIA

THE DAWN OF TOMORROW

DESIGNED TO PROVIDE A PERFECT HANDLING BALANCE.

The new Gamo Furia has been designed to provide both a perfect handling balance and an extremely quiet shooting. This outstanding bullpup multishot air rifle, which includes a brand new bolt action system will call your attention due to its stylized wooden stock, which makes its design way more compact, balanced and agile. The Furia has been engineered bearing maneuverability and precision in mind, so it features a cold hammer forged barrel which provides improved performance in narrow spaces and a notorious weigh reduction.

# HPA TACTICAL

## THE FIRST TACTIC PCP AIR RIFLE.

Gamo's HPA Tactical is a tactic-looking air rifle which features the brand's precharged pneumatic air technology. Gamo's last generation PCP provides a smooth, powerful and accurate shooting due to its sophisticated compression system, which supplies a constant air feed that efficiently boosts pellets of all calibers. Gamo's HPA Tactical airgun is composed of a precise and reliable cold hammer forged barrel and a brand new adjustable and ergonomic polymer stock, which guarantees a perfect sight to target alignment.

Magazine placement

The new PT-80 Desert Attack is a restyling of the PT-80 and incorporates a tactical rail and a striking colour design. Is a semi-automatic CO2 pistol. Coming in at just under 550g with a rifled steel barrel that is 11cm long, this pistol is capable of firing accurately and delivering a remarkable 8 shots under 1.5 seconds. Designed to fire as either a semi-automatic or single shot.

## PT-85 BLOWBACK

### BLOWBACK CO2 AIR PISTOL

#### Ammunition

Pro Magnum

Blowback action

Manual safety mechanism

The GAMO PT-85 Blowback CO2 has an authentic look. Is a semi-automatic pistol equipped with the Blowback feature. Blowback design moves slide backward when firing and uses only a small portion of air to move it. The rifled steel barrel adds accuracy and the textured grip reduces slippage and shooting comfort. It shoots pellets.

8 Pellet rotary magazine

Stipped grip with finger grooves

GAMO's PR-725 Revolver has a real revolver mechanism, single/double action. Powered by a CO2 cartridge, the PR-725 has a 2,5" rifled steel barrel. The molded stippled grip have finger grooves for added control. Comes with bottom ventilated shrouds. Extremely realistic. This is a great gun for shooting tin cans, plinking and hitting spinners.

HUNTING

The AF-10 by Gamo is a model that offers you fun and precision. It has a 10 shot magazine (rounded shape ammunition or bb's) and single shot mode that admits ammunition of all shapes. The effortless cocking gives you the opportunity to fire thousands of shots without the need to buy anything but ammo. Absolutely vibration-free

PR-45

PRECOMPRESSED AIR PISTOL

The PR-45 by Gamo is pre-compressed system with valve. Lends itself as an excellent target shooter and provides air gunners of all kinds with an accurate and reliable pistol. The single shot mechanism is almost completely recoilless and produces high amounts of muzzle energy to keep your pellet straight and on target. Vibration free. The rear sight is adjustable for both windage and elevation and allows for precise shot placement, whatever the conditions.

COMPACT

PRECOMPRESSED AIR PISTOL

Compact is Gamo's entry into the field of top-level match air pistols. It is ideal for ten-meter competition. Built with a competition grade rifled steel barrel, fully adjustable rear sight and finely adjustable match trigger. The light single stroke pneumatic power plant is vibration free enhancing this pistol's pinpoint precision even further. This is a very accurate air pistol for shooters who want the best for target shooting, it's a good one for learning how to shot a handgun.

## P-900 JUNGLE

### SPRING PISTOL

The GAMO P-900 Jungle is equipped with an ergonomic design that will allow you to have better precision when shooting and more equilibrium of it while handling. Being spring operated means the gun will last a very long time, before requiring re-springing. You don't need a CO2 capsule to load it, only you and a tin of pellets to get hours of fun. It's ideal for all intended and imaginable purposes, from simple outdoors plinking to target practice and official training.
